

GAIA MINERELLA is a home water refrigerator/carbonating device to have plain or fizzy water at any time.

Temperature and aerating degree of water can be set out each time by the front control panel. A liquid crystals display shows all the data as soon as they are set.

Gaia Minerella will be your home spring. If necessary it can be combined with a filter or a purification plant, you'll have a clear, light water without impurity... only fresh water and bubbles.

DUCALE 97/61 3gr

DUCALE - THE RIGHT CHOICE

Because it comes from the great tradition of coffee grinding, so as to give an espresso with a supreme aroma. Proposed in a traditional line with sober forms, made completely of enameled metal. Top quality assemblies with heat circulation, flanged copper boiler and built-in pump. Semi-automatic models with button or lever. Quality that is bound to last, just like the whole range of our products.

DUCALE 97/61 1gr
